

12 Event Manager

The Event Manager displays a list of logging events. It registers for both the HSE-Logger user event and for the default DQMH broadcasts.

The Event Manager is started automatically from the `startup.vi`.

Timestamp	Module Name	Module ID	Description
2019-09-20 12:21:59	System (network)		Ready for Display

Configuration

example configuration

```
[global]
; The Event Manager adds all received events to its MCLB
; to limit the maximum number of rows, set max rows to the desired value
max rows = 10
```

For a more sophisticated version, have a look at the [Event Manager Pro](#).
